PROJECTS

GlucoCare - *React Native, Figma, Node.js, Express, MongoDB*

- Built the mobile app's frontend with a team as our graduation project with React Native and Expo.
- Created the complete UI/UX design in Figma.

E-Commerce App – Next.js, Tailwind CSS, shadcn/ui, Figma

- Developed a full-featured e-commerce platform using Next.js, leveraging server-side rendering and dynamic routing for enhanced performance and SEO.
- Designed and prototyped the user interface in Figma, translating design concepts into a clean, scalable UI using shadcn/ui and Tailwind CSS.
- Implemented core features including product catalog, shopping cart, and user interactions with efficient state management.
- Integrated external APIs for product data and optimized performance through lazy loading and component-level optimization.

Social App – React.js, Tailwind CSS, DaisyUI, Zod,Tanstack Query

- Led the development of a responsive, feature-rich social media platform using React.js and Tailwind CSS.
- Designed a modular frontend architecture with Context API for authentication and global state management.
- Integrated RESTful APIs and implemented real-time data synchronization to ensure consistent and dynamic user interactions.
- Built scalable UI systems with DaisyUI and enforced strict data validation using Zod to enhance reliability and maintainability.
